

Infrastructure Security and Energy Restoration

When disaster strikes HAMMER supports DOE's energy response team to **restore critical energy** systems by:

- Preparing a team of response ready **energy experts** because energy touches every part of our society.
- Responding to energy disasters and supporting the team **deployments**.

HAMMER is making the world's **energy systems more resilient** by assisting DOE's domestic and international energy community support.

HAMMER's Support of DOE-OE:

- Award winning Federally and Nationally recognized Emergency Support Function #12 Responder Training
- DOE Regional Coordinators Training
- National and Regional Exercise Preparation and Implementation
- Deployment support during energy emergencies
- Active response team members
- Education and Outreach
- Coordinate and facilitate interface response partners to include industry and government agencies.
