

## **Military Training Program**

There is no substitute for hands-on, **boots-on-the-ground** training experience. At HAMMER, you can train like you will fight, with your equipment, using our standard operating procedures.

The 88-acre HAMMER main campus offers **scalable and customizable** training to meet your unit's needs.

Our facilities, combined with a staff of **subject matter experts**, make HAMMER one of the **best sites in the nation** for conducting performance-based training.

### HAMMER Capabilities:

- Live-agent radiological sources
  - Sealed and dispersible
  - Full breadth of radiological expertise and experience
- Ten weapons ranges with full support
- Six story tower for high-angle rope training
- Confined Space and Trench Prop
- Emergency Vehicle Operations Course with skid car and certified instructors
- Off-site live agent training ground
- Helipad
- Clandestine lab setups
- Multiple venues to facilitate a variety of scenarios
